**FASTER HARVESTING**

**Excellent Operational Efficiency**

- **Easy Operation**
  - High Harvester Lever
  - The high harvest lever is easy to control. Cutting height is quick and easy.
- **Powerful and Speedy**
  - World-renowned Kubota Diesel Engine
  - Providing high-efficiency and economical fuel economy.

**Large Capacity Grain Tank**

- The large and lightweight grain tank is equipped with a cast-iron structure.
- A standard feature, the large-capacity 1350-kg* mass.*

**Wider, Longer & Thicker Crawler for Longer-Term Durability**

- Increased track width and length of the crawler track for enhanced durability and efficiency.
- The crawler track is designed for enhanced durability and efficiency.

**Highly Durable Transmission**

- **Constant Meshed Transmission**
  - Method of shifting: gear position by sliding the slider on the shaft, resulting in gear meshing.
  - Advantages:
    - Improved durability of gears
    - Enhanced ease of gearshift

**LONGER-TERM DURABILITY**

**Innovative Track System**

- **Minimum surface pressure to the crawler**
  - Slimline CPE track system
  - Enhanced width and length of the crawler track for increased durability.

- **Enhanced Core Bar**
  - Increased width and length of the crawler track for increased durability.

- **Wider, Longer & Thicker Crawler for Longer-Term Durability**
  - Increased width and length of the crawler track for increased durability.

**MORE PROFITABILITY**

**Quick and Easy Maintenance**

- **Wide Opening/Threading Cylinder Top Cover**
  - Easy to open and close, providing easy access to the threading cylinder for maintenance and cleaning.

- **Concave Cavity Design**
  - Concave cavity design for improved maintenance and cleaning.

- **High-Performance Side Cover**
  - High-performance side cover designed for easy access to the threading cylinder for maintenance and cleaning.

**Longer-Term Durability**

- **Low speed operation**
  - Enhanced durability of the crawler track system.

- **High speed operation**
  - Enhanced durability of the crawler track system.

---

*Note: *1350-kg* mass. is a standard feature of the large-capacity grain tank.
MORE PROFITABILITY

Superb Fuel Efficiency for Reduced Cost

Fuel efficiency much superior to other makers results in fuel savings of Rs. 21000 per year.

Excellent Threshing and Separation Performance

Excellent threshing and separation performance reduces the number of re-threshing and re-separating operations, saving time and labor.

Easy Unclogging

Easy unclogging feature facilitates prompt cleaning, reducing the time and labor involved in the process.

EXTRA FEATURES

High Quality Dust Remover

This newly designed Dust Remover reduces the amount of dust and debris that enters the machine, ensuring a cleaner environment and better machine performance.
