

Specifications

Model			L3408		
			4WD		
Engine			Kubpta D1703-M-DI		
Type			Vertical 4-cycle liquid cooled diesel, direct injection (E-CDIS)		
No. of cylinders			3		
Total displacement		cc	1,647		
Engion gross power		HP	34.7@2700 rpm		
Engion net power		HP	33.3@2700 rpm		
PTO power		HP	30.0@2700 rpm		
Fuel tank capacity		ℓ	34		
Dimensions					
Overall lenght (without 3p)		mm	2,925		
Overall width		mm	1,430		
Overall height		mm	1,715		
Wheelbase		mm	1,610		
Min. grond clearance		mm	350		
Tread					
		Front	mm	1,070	
		Rear	mm	1,120	
Weight		kg	1,115		
Clutch			Dry type Single stage		
Traceling System					
Tires		Front	mm	8-16	
		Rear	mm	12.4-24	
Steering			Integral Type Power steering		
Transmission			Gear shift, 8 forward and 4 reverse		
Brake			Wet disk type		
Min. Turing radius (with brake)		m	2.5		
Traveling speed		km/h	Min. 0.7 Max. 22.2		
Hydraulic					
Hydraulic control system			Position control		
Pump capacity		ℓ/min	23.9		
Three point hitch			Category I		
max. lift force		At lift points	kg	906	
		24 in. behind	kg	651	
PTO					
PTO (Engine speed)		rpm	540 (2,430), 750 (2,596)		

Rotary tiller specifications

Model			KRL160D		
Dimensions					
Overall length		mm	870		
Overall width		mm	1,805		
Overall height		mm	945		
Tilling width		mm	1,584		
Weight		kg	245		
Tilling Blades					
Total Number of blades			32		
Number of flanges			9		
Rotation Diamenter		mm	520		

Calculated according to our criteria. The actual capacity you achieve may be different.

Japanese Technology!

\*terms & conditions apply

# For taking on the toughest rice-paddy work, nothing outperforms the Kubota 4-wheel drive L3408 tractor and rotary tillers.

KUBOTA DIESEL TRACTOR

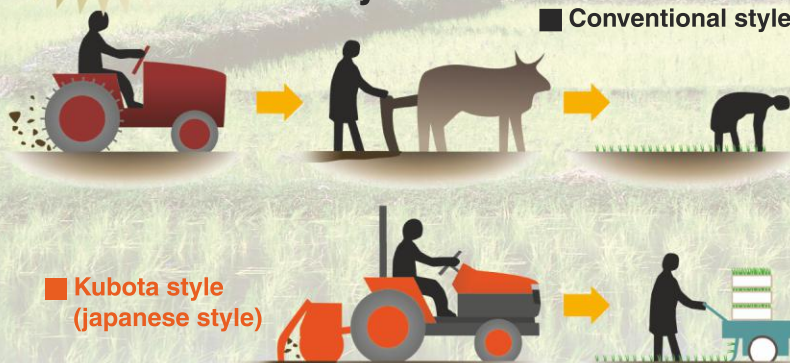

## L3408

KUBOTA ROTARY TILLER

## KRL160D

*Kubota Tractors cause a Revolution in Paddy Farming!*

Now ammying operations are unnecessary with the Kubota rotary tiller!

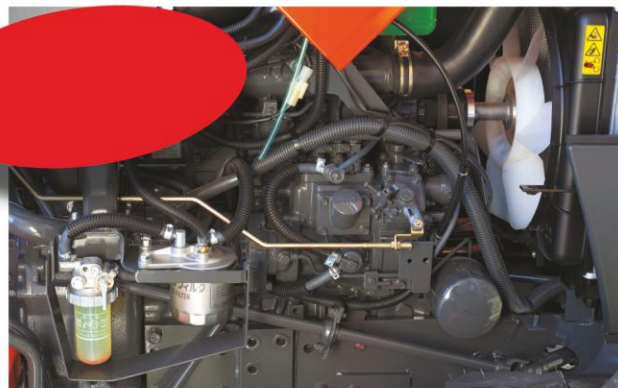

Kubota tractor collaborating with "Kubota Rice Transplanter" leading to heightened productivity!

*More powerful diesel engines to take on the toughest jobs.*

The E-CDIS engines offer a rare combination of more power, durability and better fuel efficiency, so you'll be able to get the job done quicker and more efficiently. These engines also boast lower levels, which equates to less stress and fatigue after long work days.

### Large fuel tank

A large capacity 34-liter fuel tank lets you fill up with more fuel, so you can work longer without stopping to refuel.

### Bevelgear4-wheel drive

This must-have feature provides an extremely tight turning radius with full power transfer to the wheels at every steering angle, plus a water-tight seal, making these tractors perfect for challenging rice-paddy work.

### Highly durable transmission

Made from cast iron, our long-lasting transmission is sure to keep you on the job longer with reduced maintenance. It also contributes to a lower center of gravity which means increased stability.

### Full-open hood and slide-out grill

Proper daily maintenance can greatly extend the life of your tractor. To make both maintenance and repairs easier, the L3408 has a newly assigned, one-piece, full-opening hood. Plus, for easy cleaning, the front grill quickly slides out.

*Powerful and versatile means getting the job done faster.*

You'll finish even the big jobs quicker with more horsepower and a mechanical shuttle transmission. The transmission offers 8 forward and 4 reverse speeds (8F/4R), enabling you to select the perfect speed for higher productivity.

Main shift lever

Range Shift lever

\*Equipped with KRL 160D 3-point Kubota special linkage for KRL160D

**KRL 160D**

## CUSTOM-DESIGNED for the L3408 tractor.

To ensure the best performance, the KRL 160D rotary tiller was totally developed and manufactured by Kubota. Especially designed for the L3408 tractor, not only is the balance excellent, you'll also enjoy comfortable and longer operation.

### Rotary Tiller Blade

Designed In A Crescent Shape For More Efficient Cultivating, The Special Rotary Tiller Blade Cultivates faster and wastes less power than conventional L-shaped blades.
